

REMARKS

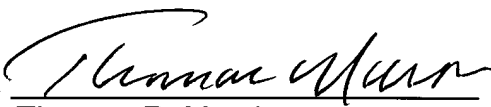

On March 7, 2005, the Examiner mailed a Notice of Allowance indicating that Claims 1-13 and 23-30 were allowed. In accordance with 37 C.F.R. § 1.312, Applicant requests a correction of an obvious antecedent error in Claim 11, where the word "interconnector" is changed to "interconnecting". Applicant also requests the correction of an obvious typographical error in Claim 11, where the phrase "fact-to-face" is changed to "face-to-face". Applicant also requests that Claim 6 be corrected to properly depend from Independent Claim 1.

Applicant further note that the Notice of Allowance and corresponding Examiner's Amendment did not recite the correct title of the invention, "METHOD AND SYSTEM FOR LABELING SYRINGE BODIES", as amended in the amendment and response filed January 18, 2005. Applicant respectfully requests correction of the title so that the patent issues with this title. Attached hereto as Appendix A is a copy of the pertinent portions of the amendment and response filed January 18, 2005 evidencing the requested title change.

It is not believed that any fees are due with this Request For Amendment Under 37 C.F.R. § 1.312. However, please charge any required fees to Deposit Account No. 50-1419.

Respectfully submitted,

Dear Sir:

Applicant submits this Amendment and Response to address the Office Action having a mailing date of October 15, 2004. Based on the amendments and remarks presented below, reconsideration and further examination are requested. Enclosed is a check in the amount of \$25.00 as the fee for the additional claims presented herein.

Although the Applicant believes that no further fees are due for submission of this Amendment and Response, please charge any fees deemed necessary for entry to Deposit Account No. 50-1419.

Please amend the above-identified patent application as follows:

AMENDMENTS TO THE SPECIFICATION

Please enter amendments to the specification as follows:

Please amend the title on page 1 of the application as follows:

~~METHOD, SYSTEM, AND APPARATUS FOR LABELING SYRINGES~~

METHOD AND SYSTEM FOR LABELING SYRINGE BODIES

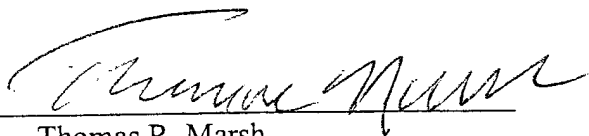

REMARKS

In the Office Action the Examiner rejected Claims 1-13 under 35 U.S.C §112 for reasons not relating to the patentability of the subject matter thereof. As to the language perceived to be indefinite by the Examiner, Applicant submits that the amendments made hereinabove to independent Claim 1 overcome such rejection. Applicant further notes that in the Office Action the Examiner indicated that Claims 1-13 would be allowable if rewritten to overcome the rejection under 35 U.S.C §112. As such, Applicant submits that Claims 1-13 and new Claims 23-25 that depend from Claim 1 are allowable. Further, Applicant submits that new Claims 26-30 are also allowable. In this regard, Applicant notes that new independent Claim 26 comprises language corresponding with independent Claim 1 and dependent Claim 7.

Based upon the foregoing, Applicant believes that all pending claims are in condition for allowance and such disposition is respectfully requested. In the event that a telephone conversation would further prosecution and/or expedite allowance, the Examiner is invited to contact the undersigned.

Respectfully submitted,
